🔊 🍘 🚞 🕵 🐹 🔽 🚓 🎹 🧭 🔁		4:32 PM

To set up an account you will need an account code and keyword. These can be accessed on any statement sent out. You will only need this one time and the accounts will be saved to the log in.

The account code and keyword can be found on your statement as above. Please note that both of these are case sensitive, and using the wrong case will result in the accounts not setting up.

If you have multiple stakeholder accounts (trainer/master/owner) please repeat this process with all of your accounts. Every account has a unique account number and keyword, so you will need to look up this information for each account. To link multiple accounts you need to repeat the last 2 steps.
